EXPERIENCE

Self-Employed
Adelaide, Australia
Sep 18 - Ongoing

Freelance Industrial Designer
Experienced freelancer for projects in healthcare, furniture, spacial design, and software. Services include design research, usability audits, experience design, concept development, CAD modelling, and spatial design.

Money Dashboard
Edinburgh, UK
Aug 19 - Ongoing

User Experience Designer (Contract)
Money Dashboard is a free personal financial management service in the UK. Roles included qualitative and quantitative research, creating design requirements and working in an agile team to implement designs.

ITO Design
Cham, Switzerland
Jun 16 - Sep 18

Industrial Designer
ITO is a design studio specialising in design for the office environment. As part of a small team in Switzerland, I led client projects to identify new design opportunities through research, develop concepts, design and build prototypes and deliver CAD designs for manufacture.

OTI Lumionics Inc.
Toronto, Canada
Apr - Aug 15

Industrial Design Intern
OTI Lumionics is a OLED lighting R&D startup. Intern roles included designing OLED lighting products, developing promotional brand assets, and designing tools to improve the efficiency of their materials research lab.

Blue Sky Design
Sydney, Australia
Jun - Dec 14

Industrial Design Intern
Blue Sky is an Australian consultancy focused on customer experience design. Intern roles included conducting secondary research, developing user experience flows and supporting design development work. Following my internship, I continued freelancing with Blue Sky on related projects until 2016.

EDUCATION

Carleton University
Ottawa, Canada
Sept 11 - June 16

Bachelors of Industrial Design
Course requirements across business, psychology and design. My thesis project was conducted with support from Herman Miller to address supply storage and administration issues in Canadian ICUs.

Codeclan
Edinburgh, UK
Feb - June 19

PDA in Software Development (SQA Level 8)
16 week intensive software development course to develop industry relevant software development and programming skills.
